Mystery Birds

INSTRUCTIONS

Cut along the card borders (or fold and hand out). Use your rule to predict **Wetland** or **Forest**. Do *not* look at the teacher answer key on page 2.

Bird 1 — "Reed Sipper"

- Seed efficiency: **high**
- Worm efficiency: **low**
- Water-food efficiency: **high**
- Beak: wide & scoop-like

Predict habitat: Wetland or Forest?

Bird 2 — "Needle Bill"

- Seed: **low**
- Worm: **high**
- Water-food: **low**
- Beak: long & thin

Predict habitat: Wetland or Forest?

Bird 3 — "Blue Jewel"

- Seed: **low**
- Worm: **high**
- Water-food: **low**
- Beak **color:** bright blue (pretty!)

Predict habitat: Wetland or Forest?

Bird 4 — "Hidden Factor"

- Seed: medium
- Worm: medium
- Water-food: **high**
- Beak: medium scoop

Predict habitat: Wetland or Forest?

TEACHER ANSWER KEY — DO NOT HAND TO STUDENTS FIRST

Mystery Birds — Answers

Bird	Answer	Why
1 Reed Sipper	Wetland	High water-food + scoop beak matches wetland pattern.
2 Needle Bill	Forest	High worm / low water matches forest pattern.
3 Blue Jewel	Forest	Color is noise — scores match forest.
4 Hidden Factor	Forest	Looks wetland from water score, but nests only in deep forest cavities (hidden factor).
